

ALFIYA ANSARI

PROFESSIONAL SUMMARY

Data Science graduate student with hands-on experience in data analysis, machine learning, statistical analysis, and end-to-end data projects using Python and SQL. Skilled in exploratory data analysis, data visualization, feature engineering, and predictive modeling. Experienced in translating complex datasets into actionable insights and building analytics workflows to support data-driven decision-making. Seeking a Data Science or Data Analyst internship or working student role in Germany.

EXPERIENCE

AB Technologies - Data Science Intern

Nagercoil, India

02/2023 - 03/2023

- Cleaned, processed & analyzed **10+ structured datasets (50k+ records)** using **Python (Pandas, NumPy)**, improving data quality by **~30%**.
- Performed **EDA and statistical analysis** on large datasets (**100k+ rows**) identifying **5+ key trends** to support data-driven decisions.
- Built and optimized **4+ machine learning models** using **scikit-learn** to improve prediction accuracy from **~72% to ~85%** through hyper parameter tuning.
- Applied **feature engineering techniques** (encoding, scaling, feature selection), boosting model performance by **10-15%**.
- Automated analysis and reporting workflows with Python, reducing **manual effort by ~40%** and improving stakeholder reporting efficiency.

RCET - Volunteer Tutor

Kanyakumari, India

09/2022 - 03/2023

- Tutored **15+ students** in **data analysis, Python, statistics, and machine learning fundamentals** through structured lessons and hands-on coding with real-world datasets.
- Led **50+ problem-solving sessions**, strengthening students' **data interpretation, analytical thinking, and model-building skills**.
- Designed **custom study plans and practice materials**, improving concept retention and boosting student confidence in core data science concepts.

EDUCATION

- ✉ alfiyaansari175@gmail.com
- ☎ +4915217428155
- 📍 Koblenz, Germany
- 🌐 <https://www.linkedin.com/in/alfiya-ansari175/>
- 🔗 <https://github.com/alfiya-ansari-175>

TECHNICAL SKILLS

- Python
- SQL
- Data Analysis
- Machine Learning
- Deep Learning
- Natural language processing
- NoSQL
- Statistical Analysis
- Statistical Testing
- Tableau
- PowerBI
- Excel
- Large Language Models
- Big Data
- Hadoop
- PySpark
- Amazon Web Services
- HTML, and CSS
- Streamlit
- Flask

- **Universität Koblenz, Germany**
MS in Web and Data Science - Expected in 10/2026
- **Anna University, India**
BE in Computer Science and Engineering – 2023 (CGPA : 9/10)

DATA SCIENCE PROJECTS

Hospital Admission Analytics & Predictive Modeling
• Performed data cleaning, exploratory data analysis (EDA), feature engineering, and predictive modeling using Python to forecast hospital admissions.

Real Estate Fair Value & Overpricing Predictor
• Built regression-based machine learning models to estimate property values and identify overpricing using data-driven techniques.

Workplace Safety Risk Intelligence
• Developed a deep learning-based risk prediction system using TensorFlow to assess workplace safety hazards.

PySpark-Based Fraud Detection System
• Processed large-scale datasets using PySpark and implemented gradient boosting models for fraud detection in distributed environments.

Tableau Dashboard – World's Finest Restaurants
• Created interactive Tableau dashboards to visualize global restaurant trends, ratings, and geographic insights.

NoSQL-Based Music Data Analytics (MongoDB)
• Designed a NoSQL data model and implemented MongoDB aggregation pipelines for large-scale data analysis.

Statistical Analysis of International T20 Cricket Performance
• Conducted statistical analysis and data visualization to evaluate player Performance using python.

LANGUAGES

English	Tamil
Advanced (C1)	Bilingual or Proficient (C2)
Hindi	German
Intermediate (B1)	Beginner (A1)

CERTIFICATIONS

- **Data Analytics course**, Google
- **Deep Learning course**, DeepLearning.AI
- **Machine Learning with Python**, Udemy
- **Large Language Models**, Databricks Academy
- **Apache PySpark**, Databricks Academy
- **Data Science Bootcamp**, 365 Careers
- **MySQL for Data Analytics**, 365 Careers
- **MongoDB Course**, Udemy
- **Statistics for Data Science & Analysis**, Udemy
- **Big Data and Hadoop**, Udemy

ACHIEVEMENTS

- **Academic Topper Award** – Ranked among top performers for 5th, 6th, 7th, and 8th semesters
- **First Class with Distinction** – bachelor’s degree (CGPA: 9.0/10)
- **Winner**, Inter-College and National-Level Technical Competitions
- **Merit-Based Academic Recognition** for consistent academic excellence
- **Student Council Member** – College-level academic and technical event coordination.
